

DO YOUR PART! BE SAFETY SMART®

THIS HOLIDAY SEASON!

CREATE A SAFE HOLIDAY LIGHT SHOW

1. TURN OFF LIGHTS IN YOUR HOUSE WHEN NO CREATURES ARE STIRRING – NOT EVEN A MOUSE

Be sure to turn off any electrical lights, decorations and space heaters before leaving home or going to bed.

2. CANDLE BRIGHT, CANDLE IN SIGHT

Keep burning candles within sight. Extinguish all candles before you go to bed, leave the room, or leave the house.

3. ON TABLE OR MANTEL, WATCH THAT CANDLE

Keep candles on a stable, heat-resistant surface where kids and pets cannot reach them or knock them over. Lighted candles should be placed away from items that can catch fire and burn easily, such as trees, other evergreens, decorations, curtains and furniture.

4. INSIDE, OUTSIDE, WHATEVER THE DÉCOR LOOK FOR®

Use only lights that have been tested for safety by a nationally recognized testing laboratory, such as UL. Lights for both indoor and outdoor usage must meet strict requirements that testing laboratories are able to verify. On most decorative lights available in stores, UL's red holographic label signifies that the product meets safety requirements for indoor and outdoor usage. UL's holographic label, with the green UL Mark, signifies it meets requirements for only indoor usage.
